About Me

I'm a recent graduate pursuing a career in Front End Web Development in the Dallas/Fort-Worth area. I'm self-taught and always eager to learn and improve my skillset. I'm passionate about art in its many creative mediums, and combining that with my love of puzzles and problem-solving, web development has been a perfect fit for my ambitions. I have the potential for high achievement and performance in a front end developer role.

Skills

- **Coding Languages:** HTML, CSS, Javascript
- **Frameworks, Libraries, and Preprocessors:** React, Sass, jQuery, Bootstrap
- **Version Control and Editing:** Git and Github, Visual Studio Code, MacOS
- **Graphic Design and Prototyping:** Adobe Photoshop, Figma

Experience

Front End Developer, Self-Taught; Oct 2018 - Present
I'm an effective self-learner and problem solver, and have learned essential front end development tools. I'm knowledgable of industry standard frameworks and libraries, responsive design, accessibility, and mobile-first web applications. I have completed several personal projects from scratch (found in my portfolio), and my workflow takes a project from prototype through deployment.

Delivery Driver, UberEats; Jan 2018 - Present
Self-motivation, facilitating communication, excellent navigation skills, and time management have led to my successful completion of over 1000 deliveries and a very high satisfaction rating from both businesses and customers.

Retail, Albertsons, Five Below, and Movie Trading Company; Nov 2013 - Oct 2015
Before attending university, I had several part-time retail jobs where I consistently received praise from managers, including promotions and retention after seasonal hiring. I gained valuable skills such as excellent customer service, the ability to work productively under high pressure and time constraints, multi-tasking, organizational skills, critical thinking, and the ability to adapt to impromptu situations.

Education

Bachelor of Arts in Radio, Television, and Film (English Minor) - University of North Texas, 2015 - 2018
- Worked with digital production equipment, video editing software such as Adobe Premiere and Avid, both technical and creative writing, and critical theory of film.

Tarrant County College - 2011 - 2014
- Selected to be an editor for the campus literary journal, Marine Creek Reflections, for two semesters.

Certifications - 2018 - 2019
- I've received certifications from Udemy and FreeCodeCamp for web development, responsive design, and Javascript structures and algorithms.
